

# **Rakshpal Bahadur College of Nursing**

## **Certification/Value Added Courses in Nursing**

# SIGNIFICANCE OF VALUE ADDEDD COURSES

## Preamble by- Prof. Narshimha Prasad

Nursing is one of the oldest vocation and youngest profession. During the present time the demand for health manpower (Nurses) is very high, both nationally and internationally and locally. An estimate of 20 million nursing jobs are available through out the world.

The students during their courses in nursing, come across various specialty and super specialty areas. They may start liking a particular area of super specialty. The certification courses help them to get into their areas of liking soon after completion of their courses & Help them to get a job in the desired area.

Some of the important certification and value added courses are outlined here.

- NABH Training
- Medical Record Department(MRD)
- IVF Training
- Psychiatric Nursing
- Basic Ms. Office
- Home care
- Telemedicine/ Tele Nursing

# 1- NABH (National Accreditation Board for Hospital & Health Care Providers.

NABH hospitals are awarded certification by quality council of India. The staff nurses there are recruited as per the guidelines of QCI in providing quality patient care. A certification course helps the incumbent students is important training in NABH hospitals as per the norms.
